Easy Problems

- Rotate Matrix Elements
- Sort the matrix
- Turn image by 90-degree
- Multiply two matrices
- Maximum element of each row in a matrix
- Count sorted rows in a matrix
- Common elements in all rows of matrix
- Print matrix in snake pattern
- Sort a Matrix in all way increasing order
- Row with maximum 1s
- Sums of diagonals of a matrix
- Array subset Check
- Boundary elements of a Matrix
- Magic square

Medium Problems

- Peak Element in 2D matrix
- Matrix Median
- Rotate matrix by 90 degree without extra space
- Rotate Matrix by 180 degree
- Rotate the matrix right by K times
- Print a given matrix in spiral form
- Zigzag (or diagonal) traversal of Matrix
- Spiral Traversal of Matrix
- Search in a Row Column Sorted Matrix
- Find the number of islands
- Boolean Matrix Question
- Count number of islands in a binary matrix
- Maximum sum rectangle in a 2D matrix
- Flood Fill Algorithm
- Count Paths in matrix

- Maximum path sum in matrix
- Rotate a matrix by 90 degrees
- Minimum steps to reach target by a Knight
- Minimum cost to fill the weight
- Shortest path in a Binary Maze

Hard Problems

- Largest binary sub-matrix with all 1s
- Largest rectangular area in histogram
- Find pair in a matrix
- Maximum size square sub-matrix with all 1s
- Largest rectangle of 1's with swapping of columns
- Maximum sum rectangular submatrix
- Minimum Points to Reach Destination
- Number of paths with at-most k turns
- Boolean Matrix
- Matrix Chain Multiplication
- Ancestor Matrix from a Given Binary Tree
- Print K'th element in spiral form of matrix
- Size of the largest '+' in a binary matrix
- Maximum sum square sub-matrix of given size
- Tic-Tac-Toe Validity
